RATHBONES ASSET MANAGEMENT

Rathbone SICAV Asia Equity Fund

F GBP ACC Hedged
30 September 2026

Investment Objective

The objective of the Sub-Fund is to achieve long-term capital growth. The Sub-Fund invests primarily in the equity and equity-related securities of companies domiciled in, have significant operations in or derive the predominant proportion of their revenues or profits from countries in the Asia Pacific region (excluding Japan). These countries may include Australia, China, Hong Kong, India, Indonesia, Malaysia, New Zealand, Pakistan, the Philippines, Singapore, South Korea, Sri Lanka, Taiwan, Thailand and Vietnam. The Sub-Fund may invest in companies of any market capitalisation and in markets at any stage of development. The sub-fund is classified as an Article 8 financial product under SFDR. There is no guarantee that this investment objective will be achieved over five years, or any other time period.

Investment Strategy

The Sub-Fund may also invest in equity and equity-related securities of companies outside of the Asia Pacific region, and in fixed income securities of companies within or outside of the Asia Pacific region, to meet the objective of the Sub-Fund. Equity and equity-related securities may include common stock, preferred stock, securities convertible or exchangeable into common stock, rights and warrants to purchase common stock, participatory notes (also known as P-notes), real estate investment trusts (where these qualify as transferable securities) and depositary receipts (such as American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs) which comply with the provisions of article 41 of the 2010 Law and which do not invest in derivatives. The Sub-Fund may invest directly in shares of companies in China. The Sub-Fund may invest up to 40% of its net assets in China A Shares and China B Shares listed on the Shanghai or Shenzen stock exchanges through Stock Connect. The Sub-Fund may gain access to China shares indirectly by purchasing participation notes, exchange traded funds and UCIs. The Sub-Fund may invest up to a maximum of 10% in UCITS and other UCIs. The Sub-Fund will not invest in contingent convertible bonds. The SubFund is actively managed at the Fund Manager's discretion without reference to any benchmark.
The Investment Manager uses a bottom-up approach, using both qualitative and quantitative assessments, to select high quality companies for the Sub-Fund. These companies have, in the Investment Manager's view, strong management teams, sound financial positions, good governance practices and the potential to generate positive outcomes in the Asia Pacific region and globally, among other factors. As a result of the investment process, the Sub-Fund may be concentrated in 25 to 35 positions.

The OCF includes the charges for the underlying funds held in the product. From April 2018, the ongoing charges figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges. The OCF is included in the Annual or Interim report and are calculated biannually. The OCF is estimated to reflect the expected ongoing expenses.
